VINEGAR BITTERS

Hundreds of Thsands
Bear testimony to the Wonderful Curative Efts.

WHAT ARE THEY?

FOR FEMALE COMPLAINTS, wether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

THEY A NOT A VILE
FANC DRINK,

Made of Poor Ru Whiskey, Proof Spirits and Refuse Liqrs doctored, spiced and sweetened to please the te, called "Tonics," "Appetizers," "Restorers," c., that lead the tippler on to drunkenness and n, but are a true Medicine, made from the Native Its and Herbs of California, free from all Alcolic Stimulants. They are the GREAT BLO PURIFIER and A LIFE GIVING PRIPLE a perfect Renovator and Invigorator of tsystem, carrying off all poisonous matter and restng the blood to a healthy condition. No person can e these Bitters according to direction and remang unwell.

$100 will given for an incurable case, provided the bones arot destroyed by mineral poison or other means d the vital organs wasted beyond the point of repr

For Inflmmatory and Chronic Rheumatism and out, Dyspepsia or Indigestion, Bilious, mittent and Intermittent Fevers, Diseases the Blood, Liver, Kidneys, and Bladder ese Bitters have been most successful. Su Diseases are caused by Vitiated Blood, wh is generally produced by derangement of the gestive Organs.

DYSPSIA OR INDIGESTION, Headache, Pain the Shoulders, Coughs, Tightness of the Chest, Iiness, Sour Eructations of the Stomach, Bad tasn the Mouth, Bilious Attacks, Palpitation of the art, Inflammation of the Lungs, Pain in the region f the Kidneys and a hundred o'her painful sympts, are the offsprings of Dyspepsia.

They vigorate the Stomach and stimulate the torpid lland bowels, which render them of unequalled efficn cleansing the blood of all impurities, and impag new life and vigor to the whole system.

F SKIN DISEASES, Eruptions, Tetter, Salt Rhe Blotches, Spots, Pimples, Pustules, Boils, Carbun Ring-Worms, Scald-Head, Sore Eyes, Erysipela, ch, Scurfs, Discolorations of the Skin, Humors an iseases of the Skin, of whatever name or nature, ar terally dug up and carried out of the system in a s time by the use of these Bitters. One bottle in s cases will convince the most incredulous of their tive effect.

Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of everybody, but formidable and dangerous diseases. Most eminent clergymen, most skilful physicians, and our best citizens send certificates of cures performed and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated they are easy to take; and being purely vegetable, they are perfectly harmless.

THE BRITISH COLONIST.
Wednesday Morning, Aug 9, 1871.

Urgent Federal Works.

In reviewing the published address of one of the candidates for the representation of 'Vancouver District' in the House of Commons, our local contemporary says, 'He has, however, struck out a new idea about constructing a telegraph line to connect Victoria with Nanaimo.' It is not impossible that the 'idea' might have thus been presented for the first time to the dazed intellect of our contemporary; but the author of the address in which it appeared will scarcely venture to claim to be the originator of the idea,' seeing he must have read it in this journal precisely two months ago to-day. On the 9th June we had a leading article upon the subject of 'Public Works' in which we enumerated those works which would fall within the Federal jurisdiction, the necessity for the immediate construction of which should be urged upon the Minister of Works for the Dominion, on the occasion of his approaching visit. In that article the following passage occurred :—

'Nanaimo harbor, so completely neglected in the past, should also receive its due share of attention. But in addition to these, there is another matter which we hope to see pressed on the Minister's attention. The shipping and commercial business of Nanaimo, comparatively speaking, of no little importance now, will increase rapidly in importance under Confederation, and it is highly desirable that it should be connected with the telegraphic system of the Colony. The whole cost of a line to connect Nanaimo with Victoria would probably fall below fifteen thousand dollars. Should the railway come by the way of Nanaimo, which now appears to be highly probable, such a line would become an absolute necessity; but in any case it is eminently desirable, and we do not think the Dominion Government would hesitate about undertaking so very trifling an expenditure when the object to be attained is so desirable.'

Though not, therefore, the originator of the 'idea,' we are glad to find that the candidate in question has adopted it. The necessity for telegraphic communication with Nanaimo—keenly felt now, must greatly increase under Confederation. Perhaps the most ready and inexpressive way to bring Nanaimo into the telegraphic system of the Colony would be by means of a sub-marine cable from Burrard Inlet to that town, the whole distance being little more than twenty miles; but, however this might answer as a temporary expedient, it cannot be regarded with much favour as a permanent means of communication. The telegraphic system of this Province must ultimately—at no remote period—form a part of the transcontinental line, and, as such, it will become of increasing importance that it should connect Vancouver Island with the continent, without having to pass through a foreign country. We would, therefore, regard a cable connecting Nanaimo with the present telegraphic system of the Mainland as destined to form a link in the main line, thus making the line of connection run *via* Nanaimo, instead of as now, *via* Puget Sound and through a part of Washington Territory. Taking this larger and more important view of the subject, the cable connecting Nanaimo with Burrard Inlet would become a permanent necessity, while it might, in the first instance be a temporary expedient, and the line connecting Nanaimo with Victoria would, as a part of the ultimate transcontinental line, also be a permanent necessity. It is highly proper that those who aspire to represent the Island and, indeed, the Mainland Districts in the House of Commons, should bring such matters prominently forward; but that is not enough. It must devolve upon the local Government to take advantage of the presence of the Minister of Works, in order to press these matters upon his attention; for we all know how much the Cabinet of which he is a member will be influenced by his report in their recommendations to Parliament. Whatever influence our Representatives may hope to exert in Parliament, none can be indifferent to the advantage of having the Minister of Works report in favour of the various Federal works so necessary to the Pacific Province, and, as a consequence, of having these works recommended to Parliament as a Government measure. These remarks are not confined in their application to the particular work which has been the immediate occasion of them; but they are equally applicable to all the Federal works enumerated in former articles.

New York, Aug 7—A Washington special states that Mr Fish will soon retire to be succeeded by A W Curtis.

An extraordinary statement, just published says that Secretary Boutwell was a defaulter to the amount of two million dollars when he Commissioner of Internal Revenue.

The members of the Flushing Yacht Club, including the District Attorney, Surrogate, the Treasurer of Queen's County, and other prominent citizens, embarked on the yacht Tony Miller, yesterday, for a pleasure cruise. The yacht struck a submerged stake and went down at what is called Little Boyside, and the party narrowly escaped drowning. Great excitement prevailed at Flushing, the disaster being reported greater than it really was.

The *Gazette* says, in an article on the Westfield explosion, they shall ask the Coroner to take the testimony of a man who refused a certificate to the boiler of the Westfield not two years ago, and who told Jacob H Vanderbilt if he did not obtain a competent superintendent a terrible accident would befall his boats.

The Italian general committee have received a communication from the Mayor, who declines to review the procession. The Mayor says the refusal is from reasons arrising out of his late official action respecting processions, and that he may be compelled hereafter to decline reviewing all civic processions.

Washington, Aug 5—The Commissioners of Patents yesterday decided that no party is entitled to the right to cover in a single patent more than one article manufactured, unless several improvements presented are necessarily related to or connected with each other. In other words, as many applications must be filed as there are distinct features in the invention.

The first claims against the United States, filed with the British Agent in this city, under the Treaty of Washington, is that of Jas. Crutchell, a resident of this District, which involves a large sum of money. He is a British subject, and our government, at the commencement of the war, seized his Mount Vernon Car Factory, near the railroad depot for military purposes, by which the machinery was rendered useless and a profitable business destroyed.

New York, Aug 6—The first official statement of the city and county debt,—which Mayor Hall will hereafter issue regularly on the first of every month—is published this morning. It shows the funded debt of the city on July 31st to be $54.331.708, and of the the County $24.791 350, from which deducting the sinking fund of $18.880.661, there remains as a net funded debt of the city and county $60.242 396. Temporary debt, recoverable by assesment or prepared for improvement of which debt incurred, is $11.824.500. Revenue bonds to be paid from the taxes of current year $22.709.000. Debt incurred for expenses growing out of the late war $12.683-000. City expenditures were for advertsing $31.427; for stationary $10,891; for salaries $140.000 52; for street cleaning $67,740; for contingencies $10.009.

The five German Consulates in this city are to be consolidated into one under the title of "Consulate-General of the German Empire."

California.

San Francisco, Aug 6—The city this morning presented a thoroughly gala appearance. The Italian flag was displayed from many public and private buildings in all parts of the city, and on some of the vessels in the harbor. There was also an unusual display of American flags. The literary portion of the Italian celebration passed off as quietly as did the procession. We have not seen a more quiet day and evening for many years. Not an arrest took place, and no accident or incident of any importance occurred during the day.

Sacramento, Aug 6—A fire occurred this morning at Douglas station between Lothrope and Shingle Springs, in the line of the Placerville and Sacramento Valley R R Stacked up on both sides of the road were about 200 cords of wood, which was consumed. The morning freight train from Shingle Springs and the passenger train were unable to pass the place on account of the flames and heat. The passengers and baggage were transferred to the freight train which took them to Shingle Springs to make the stage connection. The passenger train was on time. A young man named A Hoskings in the employ of the California Pacific R R at Lothrop, was run over by a car in a down freight train last night and so severely injured that he died this afternoon.

Mexico.

New York, Aug 6—A Port au Prince letter dated July 21st says—President Baez is at San Juan distributing among the Haytien insurgents, partizans of the late General Salnave, arms and munitions of war received from New York, and the Haytien government in retaliation has ordered 5000 to the frontier with orders to shoot everyone found under arms Baez, in a recent engagement with Cabral at San Juan, took 14 prisoners all of whom he shot immediately, but four days after his defeat Cabral retook San Juan, reinforced and supplied it with arms. He will establish a provisional government on the south of the island and at once commence operations against Baez.

OMINECA.

The Gold Commissioner's Report.

GERMANSEN CREEK, July 16, 1871.

SIR,—I have the honor to report for the information of His Excellency the Governor that a new and important gold field has been discovered in this district, situate on a stream known as Manson River, distant from the town of Omineca about 13 miles east and running parallel to Omineca River, into which it empties a few miles above the mouth of Peace River.

The discovery was made by Mr Robert Howell, late R E, by whom it was reported at the office of the Gold Commissioner on the 5th inst. Mr Howell stated that having found prospects in several places he decided upon trying a small point of projecting slate rock, and having spent three days in digging a ditch and hewing out a sluice box he washed for two hours and obtained 2oz, less $1, of coarse gold, and with this he proceeded to make known his discovery and record his claim. Two of the tributaries of Manson River have also been tested and prospect equally well. Since then intense excitement prevails and over four miles in length of these streams has been staked off and recorded.

It would, however, be premature to form any opinions as to the probable yield of these mines before they have been more thoroughly tested, but in one respect they possess a great advantage over Germansen Creek, viz, that the miners will not have more than one third the quantity of water to contend with.

There are now about 1200 men in the mines, but I regret to say that provisions are still scarce and are consequently sold at extravagantly high rates. Very little change in this respect has taken place since my last report, and as but few pack trains are reported on the way, I don't see any immediate prospect of a change. It is much to be feared that this circumstance will operate very injuriously to the success of the camp during the present season.

The market is now supplied with beef and mutton at 60cts per lb, and large bands of cattle are reported to be on their way in, when no doubt the price of meat will be considerably lower.

I have, &c, P. O'REILLY.

The Hon the Colonial Secretary.

A ROMAN FICHBOURNE CASE.—There is a curious parallel in Roman history to the romantic trial which is exciting so much interest. Sextus, the heir of a noble family at Rome, had escaped from the ruin of his house under Commodus, by giving out that he had died. It became known that a ram had been buried in his stead at the funeral, and several persons suffered on suspicion, but his true fate was never ascertained. After the Emperor's death a claimant appeared for the rank and fortune of the missing nobleman. His appearance answered to that of Sextus, and he satisfied many persons of his identity by his replies to their questions. Pertinax, however decided against him on account of his want of education. He had 'forgotten his Greek,' and was ignorant of philosophy, to which the whole Quintilian family had been evidently devoted. He is, therefore, considered an impostor by Dion Cassius though it is possible that in nine precarious years of danger and disguise he may have unlearned the *language* while he practised the *lessons* of his early studies.

In a late lecture Mrs Stanton, among other anecdotes of quiet humor, related a story of how the ladies of a church once picked up a 'poor orphan boy' and educated him for the ministry. They paid his tuition and he gave great promise. When he graduated they bought him some nice clothes and were all on the tiptoe of expectation to hear his first sermon. Imagine their consternation when, gravely announcing his text, he quoted from St Paul—'Let the women keep silence in the church'!

HOW LONG THE COAL WILL LAST IN BRITAIN.—We hear that the labors of the Royal Commission on Coal, appointed a few years ago by Sir George Grey, are on the point of completion, and the result is the demonstration of the fact that, assuming a certain annual increase in the rate of consumption, sufficient economically-gettable coal exists in Great Britain and Ireland to last from 800 to 1000 years.

THE BUSH FIRES that threatened serious damage on Monday were quenched by the shower yesterday morning. Near Spring Ridge several houses were threatened with destruction, and a part of the fence enclosing the Water Company's engine house was burned before the neighbors, who turned out, could beat out the fire.

ELK LAKE WATER.—Mr Wm Snyder has dammed the stream that serves as the outlet of Elk Lake and has obtained water-power to run a mill. The dam lies three miles nearer town than the lake. This water will eventually be brought to the city.

THE North Pacific sailed for ports on Puget Sound at noon yesterday.

Municipal Council.

TUESDAY, August 9.

Council met at 8 p m. Present—His Worship the Mayor and Councillors Carey, McMillan, Heathorn and Gerow.

STREETS.

A communication from J S Drummond complaining of the unsafe state of the side walk in front of Wm Galley's property on Rae street and asking that the proprietor be required to build a sidewalk.

Coun Carey said that the street was not graded and that the sidewalk in front of Galley's was quite good enough for the present.

Communication filed.

Communication from Willis Bond asking for an advance of $150 on his contract for grading and gravelling View street.

Coun Carey said he thought it would be safe to make the advance as the street would be graded in a few days, and he would move that the $150 be paid. Carried.

A communication from residents on Blanchard street protesting against a sidewalk being laid down on that street as required by the Corporation—stating as a reason that there were very few residents on that street Also a letter from Messrs Drake, Jackson & Aikman, on behalf of Mr Lowenberg, as agent for several property holders, objecting to the order of the City Council in regard to the building of the sidewalk and denying the power of the Council to compel the construction of the same. Filed.

The Poundkeeper submitted his monthly report which was accepted and one month's salary granted.

ACCOUNTS.

From Arthur Strong for clearing the gutters one month, $20.

The accounts of the COLONIST and *Standard* for publishing the Municipal tax list were taken into consideration. Quite a discussion ensued as to why the *Standard* bill should be $114 and the COLONIST $100.

Referred to the Finance Committee for settlement.

Communication from Robt Plummer asking at what time he could have an interview with the Mayor and Council in regard to his bill ($206) for auditing the Corporation accounts.

Referred to the Finance Committee to report.

COLLINSON STREET.

The petition relating to the repair of Cridge and Collinson streets was taken up and after some discussion deferred for one week.

SIDEWALKS.

Coun Heathorn moved that the owners of certain lots on Blanchard street be notified to cause to be laid a sidewalk in front of their lots in accordance with the Footpath By-Law.

Coun Carey moved that the Street Committee be instructed to remove the side walk on Kane street, in order that the street might be graded to its proper width. Carried.

Adjourned.

NAVAL.—The U S steamer California, Capt J M Belitz commanding, arrived at San Francisco, Aug 1st, 137 days from New York via Callao, and proceeded at once to Mare Island for overhauling. She is a magnificent steamer of 2490 tons burthen and 2000 horse power, with a crew of 365 men and 42 marines. She mounts eighteen 9 inch guns, two 600 pounder Parrotts, and one 60 pounder rifled Parrott. Officers and crew all well. Corporal Mathew Dayle and private Shields of the marines died on the voyage. She will become the flagship of the Pacific squadron and fly the broad pennant of Admiral Winslow as soon as she gets in order.

A TERMINUS WASHED OUT.—Duluth, the eastern terminus of the N P Railroad, was visited on the 8th July by a tidal wave, sweeping away the pier and the cribwork, and scattering timbers and rafts of every description. The current ran in at the rate of fifteen miles an hour, and then out with like velocity for twenty minutes. Its oscillations were kept up for several days afterwards. The depth of the wave was thirty inches.

ON MONDAY a hawk flew into the house of Mr R Lang, James Bay, and killed two canary birds that were in a cage. He then flew out and alighted on a fence. A young man fired at him with a gun when he flew back into the house and pecked at two little children. The windows were then closed and the little savage killed.

ONE APPLICATION OF THE OIL OF GLADNESS cured Strong, the Town Scavenger, of chronic rheumatism. Toothache is cured instantaneously and for cuts, burns and bruises no remedy that comes anywhere near it in point of efficacy has been discovered.

INQUEST.—An inquest was held yesterday upon the body of John Davey, who died in the jail on Monday night. The jury returned the following verdict—'Deceased came to his death from the effects of disease of the brain.'

A FORMER slave, who shot a person pursuing him with bloodhounds, has written to the New York *Tribune* to know whether he will have to suffer the consequences of that act if he tells the thrilling story connected with it.

THE GAME SEASON.—The season during which deer shooting is prohibited expired on the 1st inst and grouse shooting may be indulged in with impunity after to-morrow. We understand grouse is more than usually abundant.

TO CONTRACTORS.—Fresh tenders are invited for the new building to be occupied by the Sisters of St Ann. The building promises to be one of the most imposing in the city.

REMANDED.—Jas O'Neill, who was convicted some days ago on a charge of theft and remanded for sentence, was yesterday again remanded for one week, then, if in the Province, to appear for sentence.

IT is reported that between 200 and 300 men are on the way back from Omineca via Skeenamouth. They have been literally starved out.

THE steamer G S Wright, on her way to Sitka, arrived at San Juan Island yesterday afternoon.

THE bark Robert Jones, lumber laden for Arica, Peru, will sail this morning.

MERCHANTS' LINES.—Attention is directed to the shipping card of Wm Pickett & Co., of the old established Merchants' Lines of sailing vessels to Victoria and Puget Sound. Every facility is afforded shippers by this line, and Mr Pickett, a former British Columbian, with large experience as a commission buyer, thoroughly understands the classes of goods that will find ready sale here.

GRAND PIANO RAFFLE.—We learn that the Committee of Management of the Mechanic's Institute have decided to dispose of the Grand Piano belonging to the Institute, by means of a raffle, to be held on the 2d proximo, full particulars of which will be announced in due time. We believe the instrument is a very superior one, and there will doubtless be a rush for tickets.

CANNED SALMON.—Owing to the smallness of the run the canned salmon put up on the Fraser will be light. It is thought that owing to the few fish taken this season in the rivers south of this, that the price of preserved salmon in foreign markets must materially advance.

THE steamer Sir James Douglas sailed for Nanaimo and way ports at 7 o'clock yesterday morning. Among the passengers were the Rev Mr Alexander, Chaplain of H M S Zealous, Miss Alexander, two Misses Skinner and ten others.

BARK CORNELIS ASHORE.—The bark Cornelis, which loaded at the Hastings Mills with lumber for Valparaiso, is reported aground at the entrance to Howe Sound. The extent of the disaster is unknown.

THE losses by fire in the United States during 1870 are estimated to have been $60 000,000, the marine losses $20,000,000, and the death claims actually paid by the life insurance companies were $20,000,000.

THE FUNERAL of the late Daniel Deasey will take place this morning, leaving the residence of of his parents, James Bay, at 9 a m. Friends are invited to attend.

SEMI-WEEKLY TRIPS.—The Enterprise will resume her semi-weekly trips to the river next week, commencing on Tuesday.

SCARCITY OF FLOUR.—There is not a barrel of Imperial in town and very little Standard.

THE Skating Rink is the most popular place of resort in the city. The amusement is both healthful and graceful.

THE Oregon Conference of the Methodist Episcopal Church will commence at Portland to-day.

THE Sparrowhawk had not arrived up to the hour of our going to press last night.

THE Enterprise will sail at 7 o'clock to-morrow morning.

The Higher Law.

EDITOR BRITISH COLONIST,—The jury who sat over the remains of young Dasey did well to 'protest against the too common practice of young boys being allowed the use of firearms by their parents;' but I think they might have gone a step farther and protested against the too common practice of men and boys using firearms on the Lord's Day. It is not the least distressing feature of the late fatal accident that the boys were at the time trampling upon that higher law which enjoins the universal Christian duty of keeping holy the Sabbath Day. The singularly large proportion of fatal accidents attending the open disregard of that law has long been the subject of general remark, and the extant to which that law has come to be disregarded in this colony has almost acquired the dimensions of a public scandal. Seeing the Coroner's jury and, I am sorry to have to add, the press have failed to bring out this point, in connection with an accident which has resulted in the untimely death of a most promising youth, I beg you will afford me a little space in which to direct attention to a subject which I hope to see improved upon in every Christian pulpit in the community. SUBSCRIBER.

By Electric Telegraph,

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DISPATCHES.

Europe.

VERSAILLES, August 7—The first court martial for the trial of Communists opened today. The indictments were read. Some of the prisoners treated the proceedings with levity, whereupon the court prohibited them from communicating with each other. Examinations will begin tomorrow.

DUBLIN, August 7—The Royal visitors left today; crowds lined the streets through which they passed, but not a cheer was raised. The people preserved dead silence broken only by a few hisses. The conduct of the Prince at Phœnix Park yesterday which was denounced as brutal has embittered the population. The newspapers demand an investigation. The Amnesty Committee has issued an address, it declares that the meeting to make a holiday in honor of Royalty would have been allowed, but because the people had met to plead for captives they were stricken down and the sword reddened with blood.

Eastern States.

PHILADELPHIA, August 7—The Red Stockings of Boston, defeated the Athletics by a score of 23 to-day.

WASHINGTON, August 7—The President accompanied by Gen Porter returned to Washington this evening. The Cabinet meeting will be held to-morrow. The President will return to Long Branch to-morrow night.

ST LOUIS, August 7—About two o'clock this morning a boiler in the Union flouring mills of Yager & Co, at the foot of Florid street, exploded killing J Scott, engineer and P Jones, foreman, blowing out the east end of the mill. The explosion was caused by pumping cold water into the heated boiler.

LOUISVILLE, August 7—The election in this city to day shows a heavy Republican gain.

NEW YORK, Aug 7—The projected mass meeting for the examination of the frauds in the city treasury will not, for some unexplained reason, be held to-morrow.

Opdyke, President of the Chamber of Commerce, will answer the letter of the Mayor and Comptroller to-morrow, giving his ideas in regard to the manner in which the accounts should be examined.

Assistant District Attorney Sullivan, in an address to-night, defended the city government from the charges of financial fraud and corruption. He said the Republican party when in power in the State paved the way for the perpetration of frauds, and that the city authorities were ready to meet their accusers face to face.

DELAYED DISPATCHES.

Europe.

LONDON, Aug 1—There is a growing uneasiness in the public mind in the fact that the cholera has been raging for two years in Russia. As the terrible scourge has not yet reached the frontier, a close watch has been instituted to prevent its progress. Apprehensions exist everywhere. It not having advanced upon Germany in the usual way it may now come by way of the sea, and the Government has presented regulations to be enforced upon all ships from Baltic ports. There has been recently some cases at Hull, which is on the route of emigrants from North Germany to America. There is some anxiety touching cholera which appears in the southern part of France One case occurred at Hull. Precautions are taken.

Prince Arthur will shortly be created Duke of Connaught.

The Duke of Edinburgh has returned to England.

Bazaine is in London.

VERSAILLES, Aug 1—The Assembly has imposed a tax upon raw materials. Government does not intend dissolving the Guards.

Eastern States.

COLUMBUS, O, Aug 1—There is considerable excitement in London, Ohio, over the alleged discovery that Peter Baffinburger, a wealthy citizen of that neighborhood, who died some three years ago, was poisoned by his young wife, who afterwards married a young man named Colburn, who was a New York newspaper reporter, now it is said a banker in New York. Baffinburger was said to be worth $750,000. He was 80 years old, while his wife was a young girl. The stomach of the deceased has been found full of arsenic and preliminary steps have been taken for the arrest of Mrs Colburn. The theory of the prosecuting party is that some preparation used by ladies for the complexion was the article administered to Baffinburger. The friends and relatives of the widow of Baffinburger state that if there is any truth in the report of arsenic having been found in the exhumed remains, it has been placed there by relatives after death in order to injure her, and also that several circumstances point to a deep laid conspiracy to secure the property of the deceased by this and other fraudulent means.

California.

SAN FRANCISCO, Aug 1—Two hundred and fifty bales of Australian wool were received by the City of Adelaide from Sydney, and will be sent East overland.

The America to-day carried the heaviest cargo that has ever left this port by steamer It includes 7000 bbls flour for China. She had 47 white and 300 Chinese passengers.

The City of Adelaide brings news of the loss of the British ship Napier, of Liverpool, at Baker's Island.

Emily Pitts Stevens, a friend of Mrs Fair, applied to-day to County Clerk Hanna to be registered as a voter. On being refused she threatened to bring suit against him for damages.

The Overland Monthly will come out next month as an illustrated magazine. The first illustrated article will be on the old Mission, etc, of Southern California, and the second on the Mare Island Navy Yard.

One of the first acts of the new Fijian Government was to advertise for proposals for laborers. The defeated Lavoni tribe has been sentenced to hard labor for life and it is proposed to hire out the common hands to planters for the benefit of the royal treasury

The brig San Francisco, which left this port bound on a fishing cruise to the Ochotek, arrived at Honolulu in distress 68 days after leaving here.

THE CZAR AND THE PRESS.—The recent suppression of the Moscow Gazette by the St Petersburg government was a very bold movement, even for the Emperor of all the Russians. The Gazette was the organ of the nobility of the empire, and those classes are hostile to the policy of Alexander. They cling to the ancient idea of triumph on the Bosphorus and Danube, through French alliances; while the Emperor holds close relations with Bismarck. The Gazette has showered invective and poured remonstance, feeling confident that its backing would preserve it from interference; but Alexander, now that France is weak, feels strong enough to defy the strongest foes of his policy, and hence, has closed out the Gazette. The Gazette had a circulation of about 150, 000, among the very best classes of Russians.

NAPOLEON SEEDY. — The ex-Imperial household at Chislehurst affect a very economical style of living, notwithstanding the fact that the ex-Empress has jewelery in her possession which she desires to dispose of for the round sum of $1,600,000. That lady may be seen taking her daily promenades in a calico suit, which cannot have cost more than six or eight dollars, while his ex-Majesty excites the commiseration of all beholders by appearing in the livery of the decayed gentleman, a seedy-looking black suit. It would give more interest to add that the shiny seams give evidence of having been freshly inked, but the truth of history must be vindicated. His Majesty is as yet only shabby genteel in his wardrobe. This affectation of poverty is said to be for political effect.

A. GILMORE, MERCHANT TAILOR, and General Outfitter, has removed his place of business to the store adjoining the Colonial Hotel and opposite the Colonist Office, on Government street, fourth door from Yates, where he proposes to give his old friends and new customers a chance on the principle of quick sales and small profits.

MR C A NOLTEMIER has returned from San Francisco with a splendid assortment of boots and shoes of the latest styles, which he will sell at low prices. Boots made to order and warranted to fit. Repairing neatly done.—Government street, next to the St Nicholas Hotel.

MILLINERY.—By last steamer a first class milliner arrived from Europe for the London House.

YALE ELECTORAL DISTRICT.

YALE, B C, July 1st, 1871.

To the Electors of Yale Lytton District,

GENTLEMEN:—Having been solicited by a number of the Electors of this district to allow myself to be placed in nomination as a candidate for a seat in the Legislative Assembly of this Province in the coming election, I take this early opportunity to thank you for your manifested confidence and to say that, in view of the many important changes which we sincerely hope for under Confederation the necessity of which is so plainly marked by past experience, it becomes the duty of each and every one to be awake in the morning, give every attention and to use every legitimate effort while shaping our new course to secure a good and economical Government Therefore I have determined to allow myself to be placed in nomination. My interests being identical with yours and having the advancement and welfare of the whole province at heart, I would advocate in every thing economy, the abolition of road tolls, the improvement of our school system, the opening up of the Kamloops and Okanagan country by wagon roads, increased postal facilities, and the organization of such a land system as would meet the requirements of the country.

I have the honor to be, your serv't,
JAMES ROBINSON.

WELLS COLLEGE.

MR HENRY WELLS, ONE OF THE founders of Wells, Fargo & Co, and the acknowledged father of the present Express system, has erected a College at Aurora, Cayuga Lake, New York, for the Education of Young Ladies.

In addition to the collegiate departments the institution is to have a cabinet of Natural Curiosities—such as gold, silver, quicksilver, petrifactions, agates, crystals and other minerals and fossils and rare botanical specimens. To procure these articles Wells, Fargo & Co's agents everywhere have constituted themselves a committee for their collection. Specimens such as are more particularly referred to in Mr Wells' letter, should in all cases be accompanied by written memoranda, giving the name of the contributor, that of the thing sent, its natural locality, and such other local or historical data as will be of instructive value and interest. Each specimen thus obtained will be neatly labled, so as to perpetuate the name of the donor, and the entire collection will be handsomely displayed in the college building and designated as 'Wells, Fargo & Co's Express Contributions.

F. GARESCHE, Wells, Fargo & Co's agent at Victoria; respectfully solicits contributions and specimens.

ELECTRICITY IS LIFE.

PULVERMACHER'S

PATENT GALVANIC

CHAIN BANDS, BELTS

AND

Pocket Batteries.

THESE REMARKABLE AND HIGHLY improved inventions render Electricity perfectly self-applicable, and extremely efficacious in a mild continuous form, no shock or unpleasant sensation being experienced, whereby it becomes a true fountain of health and vigor, speedily soothing agonising pains, re-animating torpid limbs, reviving the sluggish functions of life and imparting renewed energy and vitality to constitutions enfeebled by whatever cause. Medicines and their deleterious consequences are thus entirely dispensed with. The daily increasing number of cures effected by PULVERMACHER'S MEDICO-GALVANIC SYSTEM is so extensive and varied, that it forcibly points to this invention a the embryo of the universal remedy.

N. B—The following testimony from the ELITES of the English medical faculty has been received:

"We, the undersigned, have much pleasure in testifying that Mr J L PULVERMACHER's recent improvements in his Voltaic Batteries and Galvanic Appliances for Medical Purposes, are of great importance to Scientific Medicines and that he is entitled to the consideration and support of everyone disposed to further the advancement of real and useful progress.

Dated this 9th day of March, 1866.

Sir Charles Locock, Bart., M D, F R C P.
Sir Henry Holland, Bart., M D., F R S.
Sir Wm. Ferguson, Bart., F R S.
Edward H. Sieveking, M D, M R C S.
Sir J. Ranald Martin, F R C S."

PULVERMACHER'S SYSTEM is also approved of by an official report of the Academie de Medicine, Paris; Royal College of Physicians, London; and the Imperial Faculty, Vienna, and its curative virtues are confirmed by thousands of private testimonials of cures effected. (See pamphlet, gratis).

These facts appeal to the good sense of every sufferer to avail himself of this scientific and curative progress, to which the inventor has devoted a lifetime of study and labour, as an ardent disciple of that great benefactor of mankind, the late illustrious electrician, MICHAEL FARADAY

PULVERMACHER'S MEDICO-GALVANIC CHAIN are exceedingly effective without the aid of medicine, restriction of diet, or the least derangement of the patient's habits and daily occupations. In the following maladies:—

Rheumatism,	Tic Doloreux,	Sluggish circula'n,
Gout,	Indigestion,	Urinary Disorder
Sciatica,	Deafness,	Paralysis,
Lumbago,	Spasms,	Epilepsy,
Neuralgia,	Female complaint	Nervous Debility
Head & Toothaches	Constipation,	Functional Disorders, &c
Liver Complaints,	Cramp,	

The effects of the application of Pulvermacher's Chains in any of the above disorders is immediately perceptible—the relief of pain instantaneous.

CAUTION A Perpetual Injunction in Chancery, dated 18th August 1869, was granted to J L Pulvermacher against Alfred Parrows, alias C D Hammond, alias Henry James, alias C D Rapshey, his assistants, agents and servants restraining the said person or persons under a penalty of £5000 from deceitfully advertising Belts, &c., exclusively representing them as electric. This decree is printed in extenso in Pulvermacher's Pamphlet of recent Testimonials and Medical Reports of cures, containing likewise numerous extracts from many standard and scientific works, viz. Dr Qercira's 'Materia Medica,' Dr Tanner's 'Practice of Medicine,' Dr Handfield Jones "On Nervous and Functional Disoders, etc." This pamphlet may be had at the office of this Paper, or of J L Pulvermacher's Galvanic Establishment, 200 Regent St London.

New Remedies! New Remedies!

DR. GIBBON'S DISPENSARY

No 623 Kearney Street Corner Commercial, San Francisco, established in 1854, for the treament of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc., etc. Skin diseases of years standing, and Ulcerated Legs etc., successfully treated.

DR. GIBBON has the pleasure of anouncing that he has returned from visiting the principal hospitals of Europe, and has resumed practice at his dispensary, 623 Kearney street, corner of Commercial where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Seminal Weakness.

Seminal emission is the consequence of self-abuse. This solitary vice, or depraved sexual indulgence is practiced by the youth of both sexes to an unlimited extent, producing with unerring certainty the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Shallow countenance dark spots under the eyes, pain in the head, ringing in the ears, noise like a rattling of leaves, or rattling chariots, uneasiness about the lions, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, pimples, and various eruptions about the face, hectic flushes, furred tongue fœtid breath, consumption, night sweats, monomania and frequently insanity. If relief be obtained, you should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure.

Cured at Home.

Persons at a distance may be cured at home, by addressing a letter to Dr Gibbon, case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain direction for use, by inclosing $10 in coin, in a registered letter, through the Postoffice or through Wells, Fargo & Co.

A package of medicine will be forwarded by express to any part of the Union.

Persons writing to the Doctor will please state the name of the paper they see this advertisement in.

Private entrance on Commercial street.

All communications strictly confidential.
